

Killer Whale

You came across a group of seals feasting on a school of fish. You were successful at catching one of them for your afternoon meal.

Take the food bag of the seal that you caught.

Seal

You came across a school of fish feasting on krill. You were very stealthy in your hunt, and as a result you were successful at catching 4 of them for your afternoon meal.

Take the food bags of the fish that you caught.

Seal

You came across a school of fish feasting on krill. You were a bit late in joining the hunt, and as a result you caught 2 fish – not bad for a snack.

Take the food bags of the fish that you caught.

Seal

You came across a school of fish feasting on krill. You were too busy investigating a new cavern you found, so you were only able to catch 1 fish – you are probably going to be hungry again soon!

Take the food bag of the fish that you caught.

Fish

You came across a swarm of krill feeding on an algal bloom. While you were trying to feed on the krill, the algae irritated your gills.

You have died and are washed ashore.

Fish

You came across a swarm of krill feeding on an algal bloom. You feast on the krill, eating 4 in one dive through the swarm.

Take the food bags of the krill that you caught.

Fish

You came across a swarm of krill feeding on an algal bloom. You are able to catch a couple (2) of krill.

Take the food bags of the krill that you caught.

Fish

You came across a swarm of krill feeding on an algal bloom. You are able to catch a couple (2) of krill.

Take the food bags of the krill that you caught.

Fish

You came across a swarm of krill feeding on an algal bloom. You have just finished eating a bunch of copepods along the coast, so you aren't very hungry. You eat only 1 of the krill.

Take the food bag of the krill that you caught.

Fish
